

MANAGER OF G. O. P. SPLIT LEAGUE VANISHES

COMPROMISE PLANK ACCEPTED:
MAKE NOMINATIONS TONIGHT

Convention Recessed Until 4 P. M. to Let Resolutions Committee Complete Draft of Party's Platform.

By Associated Press Leased Wire
Columbus, Chicago, June 10.—While awaiting the report of the platform the Republican national convention held a brief session this morning and then, much to the disappointment of the galleries, took a recess until 4 o'clock this afternoon. When the convention assembled the platform was engaged in the struggle over the plan on the peace treaty and it looked as if much time might be lost. There was a consideration of plans to go ahead with nominating speeches while awaiting the platform report but there was objection to that and it was abandoned.

While the convention managers were debating what to do the word came from downtown that the platform sub-committee had agreed on a report and a few minutes later Senator McCormick of Illinois, one of the sub-committee members appeared on the speakers' platform and announced that a unanimous agreement had been reached by the sub-committee which promised union of the party and victory in November. Mr. McCormick presented a motion for a recess until 4 o'clock but there was a roar of ayes and noes from the delegates and galleries and Chairman Lodge who presided called the roll for a standing vote on which he decided that the majority wanted to recess.

AGREE ON TREATY PLANK.
By Associated Press Leased Wire
Chicago, June 10.—A League of Nations plank declared by leaders to be acceptable to everybody was unanimously adopted today by the Republican resolutions sub-committee apparently ending all threat of a party split over the league issue.

Chairman Watson said in his opinion the plank would not injure any of the candidates. He said all could stand on the agreed provision.

The plank upholds the senate in refusing to ratify the treaty. Watson said that any future international peace understanding must square with American traditions and omits the affirmation declaration for a league which has been urged by the mild reservationists.

Omitting all endorsement of the pending League of Covenant the Root resolution provides for a new agreement with other nations which shall include a tribunal for the settlement of international disputes. It was prepared by Senator Root before his departure for Europe, but has been modified considerably by the sub-committee.

The plank is also agreeable to Ogden Mills of New York, a representative of the mild reservation group on the sub-committee and the members generally declared the plank to be a complete agreement were bright.

It was said there still were some possibilities of a hitch and that the danger of breaking open the treaty question on the floor of the convention had been eliminated.

Lodge Takes Stand
The agreement was reached at a conference attended by Senator Lodge of Massachusetts, the Republican senate leader, and afterwards Senator Borah declared that Senator Lodge had taken a stand opposed to ratification of the treaty and would so state to the convention.

The members of the sub-committee declined to give out the text of the plank, saying they wanted to take an hour or two to finally polish it up before giving it to the public.

All the members of the sub-committee, however, seemed satisfied with the development and emphatically asserted that the peril of a party split was over.

Removed Obstacles
The development came as a sensation soon after the sub-committee had been what seemed to be a long and desperate struggle. It removed, sub-committee members said, the obstacle which had been holding up the work of the convention and the members would permit final action by the convention on the platform at today's session.

The plank, together with the remainder of the platform still had to be passed on by the full resolutions committee but the leaders expressed every confidence that the work of the sub-committee would be approved virtually without change. Accepted first by the conference of leaders, the Root plank later was given unanimous approval by the 13 members of the sub-committee.

Senator Lodge had no statement to make when he emerged from the conference, but went immediately into consultation with Senator Watson of Indiana, head of the sub-committee who with Senator Smoot of Utah had been at work all night to bring the battling element into harmony.

While the plank accepted today was drafted originally by Mr. Root, it was said that some modifications had been made in the pre-convention conferences of the leaders and in the meeting this morning. Mr. Root is in Europe.

Night Session Possible
Although the sub-committee also approved today the Mexican and Armenian planks, they decided to spend the day in putting the platform into final shape and to submit it to the committee at 4 p. m. It also was suggested that the convention might hold a night session to approve the platform and possibly begin work on nominations.

Labor Unions Again Urge Government to Own Its Railroads

By Associated Press Leased Wire
Montreal, June 10.—Government ownership of railroads is urged in a joint resolution presented by seven international unions to the American Federation of Labor today at its annual convention. The resolution declares government ownership is necessary to provide more adequate and cheaper transportation and to eliminate the "sinister influence of railroad corporations on our national life."

Military training in schools and the establishment of compulsory military service or training are condemned as "unnecessary undesirable and un-American" in a resolution proposed by the American Federation of Teachers.

Resolutions presented by the Railway Association asks the executive council to aid in obtaining the abolition of present so-called unreasonable speed tests and standards of personal efficiency in the postal service. They also demand establishment of an eight hour day with time and a half overtime.

Declaring that millions of negroes are ignorant of the benefits of collective bargaining, resolutions have been introduced for a negro membership campaign in all states.

Seven international unions demand repeal of the espionage act.

The policemen's union of Oklahoma asked the federation to organize all policemen unions in the United States and Canada into an international union.

LOOKED OVER COURT HOUSE.

Circuit Clerk Harry Miller and Supervisors Pettigrew, Norton and Conner, of Bureau county, spent several hours in Dixon today looking over the Lee county court house. The visitors form a committee who are making a tour of the county seats in the northern part of the state gathering plans and ideas for the erection of a new court house in their county. The Bureau county officials were very favorably impressed with the general arrangement of the Lee county court house and it is quite likely that the proposed new building in Princeton may be patterned after the local court house, with some modern improvements, including elevators.

TAPT IN CHICAGO.

By Associated Press Leased Wire
Chicago, June 10.—A mass meeting of southern delegates, staged in a hotel lobby with some 300 attending, was held last night in the interest of demanding recognition of the south on the Republican national ticket.

Virginia and North Carolina both have vice president candidates in the field and speakers from other southern states advised that they unite on one man or the other and that the southern delegations then all join in support of the man so named. A committee representing all southern delegations was appointed to canvass the situation and report to a second mass meeting tonight.

THEY LOOKED INTO IT.

By Associated Press Leased Wire
Chicago, June 10.—An elderly delegate from Pennsylvania laid before the resolutions committee of the Republican national convention yesterday a large package which he said contained matter he desired "looked into." When Chairman Watson opened the bundle, he found a bottle of whiskey—real whiskey.

Senator Smoot, of Utah, a teetotaler was designated a committee of one to consider the subject, but returned immediately without recommendations. Action by the full committee was prevented by disappearance of the contents of the bottle before it could reach that stage.

Mr. and Mrs. Sam Bacharach were morning passengers to Chicago today.

Some Tentative Planks in G. O. P. Platform Are Formed

By Associated Press Leased Wire
Chicago, June 10.—When the resolutions sub-committee went into session again this morning with the League of Nations plank still threatening a party split, a tentative foreign relations plank was under consideration declaring opposition to the treaty without reservations, but favoring ratification with American rights safeguarded.

The plank was framed after all night conferences in which former Senator Murray Crane of Massachusetts, leading the mild reservation group, presided. It contained in substance the declaration submitted by Senator Crane yesterday and had not been accepted by the irreconcilables.

The tentative draft also condemned President Wilson's Mexican policy, desired no Mexican regime should be recognized until willing and able to give adequate guarantees for protection of American rights and pledged the republican party to "a consistent and effective policy towards Mexico that will enforce respect for the American flag" and protect American citizens and property.

There was no direct reference to intervention in Mexico but it was declared that the party should stand for "maintenance upon the maintenance of order" in Mexico. The proposal for a mandate over Armenia was condemned and the action of congress in passing a peace resolution was approved.

It was indicated that although references to the League of Nations still were in formative stage the sub-committee probably would accept the tentative draft so far as it related to Mexico, Armenia and the peace resolution.

EXPECT AGREEMENT.
As the platform conference began in a desperate effort to conclude its work and lay a completed platform before the convention at today's session leaders on both sides of the League of Nations row expressed confidence of an agreement but conceded that material obstacles remained. At the same time, however, the full resolutions committee began its consideration of other planks agreed on last night by the sub-committee.

ECONOMIC QUESTIONS.
These included an industrial relations plank under which recognition of anti-strike legislation had been omitted, a plank blaming the depreciation of money values for the high cost of living, one opposing government ownership or operation of railroads, and one expressing in general terms without mention of a cash bonus, the gratitude and generosity of the party to former service men.

WOMAN SUFFRAGE.
There was also a plank asking for prompt ratification of the woman suffrage amendment but the subcommittee voted against inclusion of any direct reference to prohibition.

The tentative foreign relations plank under consideration in the sub-committee provided in part:

ON PEACE TREATY.
"We approve the action of the Republican senate with respect to the proposed treaty of peace with the League of Nations. We declare our opposition to the treaty and the League of Nations as submitted by the President and approved by the senate."

STATE LAWS DRIVERS OF CARS SHOULD KNOW

With the advent of more and more cars, it might be well for drivers to familiarize themselves with the state laws relative to driving.

There is a new law which is not generally known, although it has been published many times, and that is the question as to who has the right of way on streets when an intersection is approached. The state law gives the driver to the right the right of way. This holds good on the highways of the state as well as in cities, and it is easy to remember and should be adhered to.

It should also be remembered that the traffic regulations and makes an attempt to cross in front of the machine which has the right of way is responsible for any accidents and damages which might result.

Another law which is not lived up to is the one relative to the stopping of a car before crossing a railroad crossing. There is a penalty for an infraction of this law and drivers should get into the habit of stopping their machines before crossing railroad tracks and grade crossings. If this is done accidents will be decreased in number.

CHEWED FINGERS AND NOSE LEAD TO A WARRANT

Airing of Disgraceful Street Fight is Promised.

F. Stephen, aged 19 years, has sworn out warrant in the court of Justice Albert Hannegan, charging Ralph Ruppert with assault and battery. The alleged offense was committed Monday afternoon on West Everett street when Ruppert attacked the young man in the garage and is said to have dragged him out into the street and brutally beat him.

The trouble started at noon Monday west of the city limits, it is said, when Stephen and a man named Young engaged in a brutal street fight on Lincoln Way, over some minor affair. From reports it appears that Stephen had the best of Young, who is a relative of Ruppert. Young got Stephen's fingers in his mouth and chewed them, and Stephen whereupon Stephen hit Young in the nose causing him a great deal of pain. The affair continued, according to reports, until both participants were almost exhausted from loss of strength and the pain from their wounds.

About an hour after the street fight, Young and Ruppert were passing the garage on West Everett street and saw Stephen standing inside. From reports made to the police, Ruppert struck Stephen knocking him down without warning, dragged him out of the garage and with Young's assistance administered considerable punishment to their victim, after which they left the scene. Stephen was taken to the justice court by Chief Van Bibber, where the warrant was sworn out and the officers are now looking for Ruppert.

MANS ARM CUT OFF: FIREMAN HELD ARTERIES

C. & N. W. Engineman Displayed Foresight After Mishap.

If John Smith, aged 45, Polish laborer in the Northwestern yards at Nelson survives he will largely owe his life to a C. & N. W. fireman, who displayed unusual foresight and courage following an accident at 9:40 o'clock this morning in which Smith's left arm was ground off beneath the wheels of a heavy freight engine which passed over him at the coal chutes at Nelson.

With the member hanging by a few shreds of torn flesh the fireman whose name could not be ascertained up to press time, slashed a piece of rope from the bell cord of the engine, found it around the stump of the arm and after the man had been placed in a way car to be rushed to the Dixon hospital, stemmed the flow of blood from the exposed arteries by the pressure of his thumbs. He firmly held the arteries from the time the engine pulled out of the Nelson yards, until it arrived in Dixon, after making a record run, where the company physician met them at the depot and administered first aid treatment which held back the flow of blood until the man reached the operating room at the hospital.

Stepped Before Engine
Smith, as he is known to the railroad employees, went to Nelson the first of the week from Chicago and secured a position shovelling up coal from the bottom of the engine tracks at the coal chutes. He was engaged in this work this morning when the heavy engine pulled up to the chutes, and not noticing the approaching locomotive he stepped in its path.

He was knocked down, the engine passing over his body, cutting off the left arm between the shoulder and the elbow. He also suffered from bruises and cuts about the head and body. The engine was stopped and the unfortunate laborer was working beneath the tank and placed in a way car and rushed to Dixon, the fireman making a record run. From the time he was taken from beneath the heavy tank, it was feared that he would bleed to death before a physician could be secured.

The fireman was engaged in throwing a fire into the engine when the locomotive pulled up to the tank and the unfortunate laborer was working on this side of the track out of range of the sight of the engine.

Smith is a complete stranger to Nelson, having gone to that place last Monday from Chicago in search of employment. He has no home and as far as could be learned, has no relatives living. At the hospital he was placed in the operating room at once and the left arm amputated at the shoulder. The other wounds were given the proper attention and early this afternoon it was stated that his chances for recovery were fair, notwithstanding the fact that he is suffering from shock due to the loss of blood.

SHAVING BRUSHES ARE DANGEROUS

Bulletin of New York City Department of Health Cities Several Cases of Fatal Infection.

Anthrax Carried In Bristles

It has been found that germs of anthrax are often carried to men, through the bristles of shaving brushes. Many instances of infection have been brought to the attention of the authorities, and these have been traced directly to the brushes used by the victims in shaving. In several cases where the first indication was in the form of a pimple or scratch on the face, traces of anthrax have been found and the patients have afterward died of the disease.

Great care should be exercised in this direction. The safe way is to use a beard softener that requires no brush, no lather, no rubbing. Such a preparation can be found in Barbazol, which nearly every druggist sells, and which will eliminate all risk of infection.

If you druggist hasn't it, it will be mailed to you on receipt of price (25 cents) and druggist's name. Made only by the Nalco Corporation, Indianapolis, Ind.

Chief Van Bibber at noon yesterday arrested E. Lawrence, and D. Miller at the south end of the bridge for transporting liquor on a public highway. The chief had been summoned by telephone to meet the car at that place, Jacob Dockery, being the informant. The men had a quart bottle partly filled with vermouth and about 12 ounces of whiskey in a pint bottle. Justice Grover (chant) was summoned to the police station, where the chief preferred the charge and both men were held under bonds of \$300 each, the liquor confiscated and they proceeded on their way. The cases were continued until Friday, June 18, owing to the absence of States Attorney, Harry Edwards from the city.

Essex Trebles Power
Without Added Size

The Essex motor—controlled by patents—is no larger than the motor used in the smallest and most widely known automobile.

Yet Essex gives 55 horsepower. The conventional motor develops but 18 horsepower.

Essex adds no size. It retains the small car advantages in fuel, oil and tire economy and it gives the big-car kind of performance.

Patents make these qualities exclusive to Essex.

And as for its endurance no car of any size or cost has ever travelled 3037 miles at top speed, as an Essex stock car did to prove its reliability.

Is it any wonder more than 40,000 owners hail it the champion of all moderate priced cars regardless of its size or weight?

PAINS NEARLY DOUBLED ME UP

Nothing Helped Me Until I Took Lydia E. Pinkham's Vegetable Compound.

Wyandotte, Mich.—"For the last four years I have doctored off and on without help. I have a bad pain every month so bad that I would nearly double up. Sometimes I could not sleep a room without a topping to rest, and everything I ate upset my stomach. Three years ago I lost a child and suffered so badly that I was out of my head at times. My bowels did not move for days and I could not eat without suffering. The doctor could not help me and one day I told my husband that I could not stand the pain any longer and sent him to the drug store to get me a bottle of Lydia E. Pinkham's Vegetable Compound and threw the doctor's medicine away. After taking three bottles of Vegetable Compound and using two bottles of Lydia E. Pinkham's Sanative Wash I could do my own housework. If it had not been for your medicine I don't know where I would be to-day and I am never without a bottle of it in the house. You may publish this if you like that it may help some other woman."—Mrs. MARY STENDER, 120 Orange St., Wyandotte, Mich.

RHEUMATISM Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if two bottles of Allenru—the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinges of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiless and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed Public Drug & Book Co., to guarantee it in every instance.
